2. The prior art submitted on July 11, 2005 has been considered.
3. Receipt is acknowledged of papers submitted under 35 U.S.C. § 119, which have been placed of record in the file.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-8, 11, 13-20, 22, 42, 43, 46, 47, 50 and 51 are rejected under 35 U.S.C. 102(e) as being anticipated by Hatano (2003/0083809).
6. As per claims 1-8, 20 and 22, Hatano discloses the invention as claimed which includes a list content receiving section, a location information receiving section, a

content adaptation processing section, and area specific list content distribution processing section that distributes the area specific list content to the terminal, and a content relay distribution section for relay distributing the location dependent content to the terminal (see at least figures 2, 6, 10, 12 and the related text).

5. With respect to claims 11, 13-19, 42, 43, 46, 47 50 and 51, the limitations of these claims have been noted in the rejection above and disclosed in the Hatano reference. They are therefore considered rejected as set forth above.
